

JORGE GÓMEZ

FULL STACK DEVELOPER

PROFILE

Currently **developing** the **frontend** of a **mobile** healthcare application at CareExpand, utilizing **React Native**, **TypeScript**, Expo, and Socket.io for real-time functionality. My approach to development emphasizes writing **clean**, **structured**, and **scalable** code to ensure ease of maintenance and long-term evolution of solutions. I bring a unique perspective from my background in **management** and administration, enabling me to bridge technical development with business requirements effectively.

WORK EXPERIENCE

Frontend Developer

CareExpand, Madrid, Spain

Jan. 2025 - Present

- Develop the frontend of a healthcare mobile application using React Native, TypeScript, and Expo for cross-platform deployment
- Implement real-time chat with Socket.io for patient-professional communication
- Manage state with Redux Toolkit and optimize performance with custom hooks
- Create responsive UI components with modern UX principles and REST API integration

Front Desk Supervisor

Cape Byron Yha, Australia

Sept. 2022 - Sept 2023

- Supervised front desk operations, including reservations, guest inquiries, and the organization of tours and appointments. Also managed staff schedules.

Ministerial Program Analyst

Cenabast, Ministry of Health, Chile

Oct. 2017 - Nov. 2020

- Analyzed national demand data for medications, monitoring changes in patient numbers and their geographic distribution to project supply needs effectively.
- Coordinated the logistics and supply of critical medications and medical supplies for high-priority health programs.

EDUCATION

Full Stack Development

The Power Tech School, Spain

Nov. 2023 - Oct. 2024

Public Administration

Universidad de Valparaíso, Chile

Mar. 2009 - Dec. 2013
